# How to Install MobiTracker

MobiTracker is best for field-force monitoring and remote management .It works seamlessly with Android smart phones and tablets.

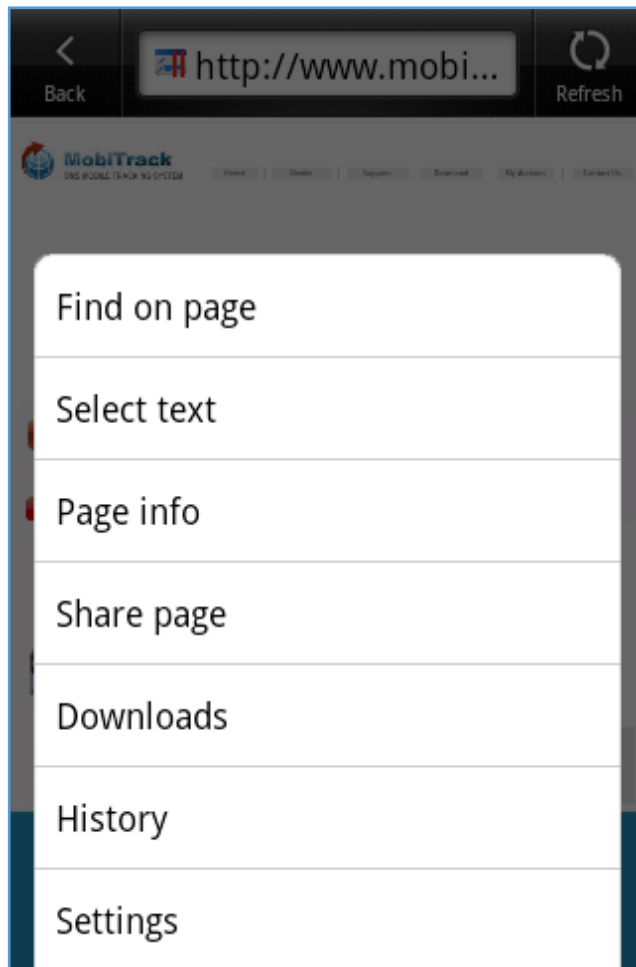

## Steps

The screenshot shows a mobile browser interface for the MobiTracker website. At the top, there is a navigation bar with 'Back', a URL 'http://www.mobi...', and 'Refresh'. Below this is the MobiTracker logo and a navigation menu with links for 'Home', 'Dealer', 'How It Works', 'Download', 'Features', and 'Contact Us'. The main content area features a 'Free Trial for Companies Only' section with a list of services and a registration form. The form includes fields for Name, Company Email, City, Mobile No., Address, and Company Details, followed by a 'Submit' button. A sidebar on the left contains buttons for 'Call Now', 'Download', 'Live Chat', and 'FAQ'. The footer contains contact information for the company in India.

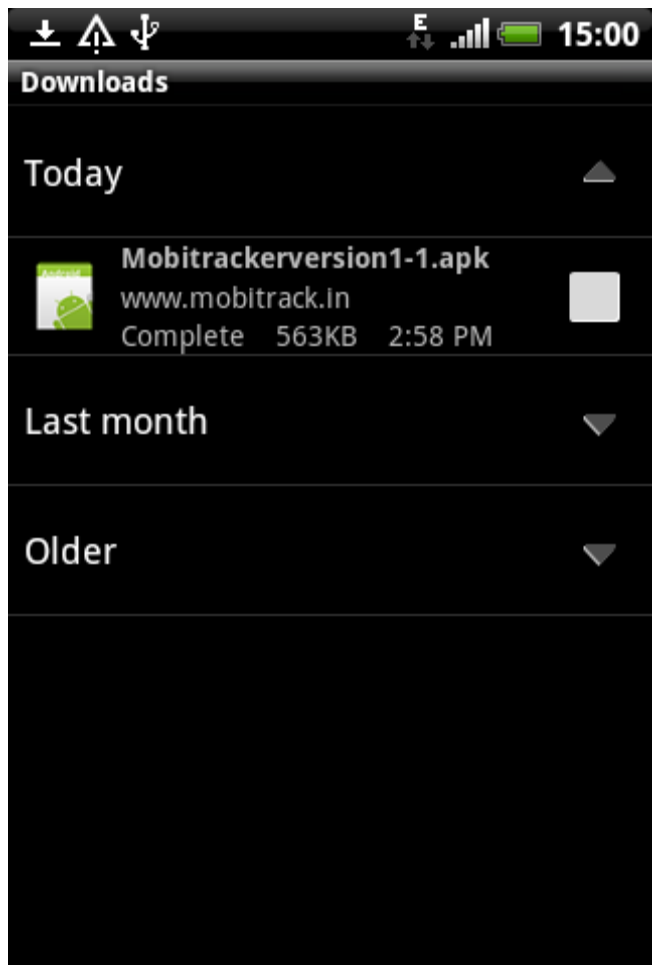

1. To download MobiTracker go to <http://www.mobitrack.in/download.html> from your mobile phone browser
2. Enter your Name and contact details.
3. Click Submit button.

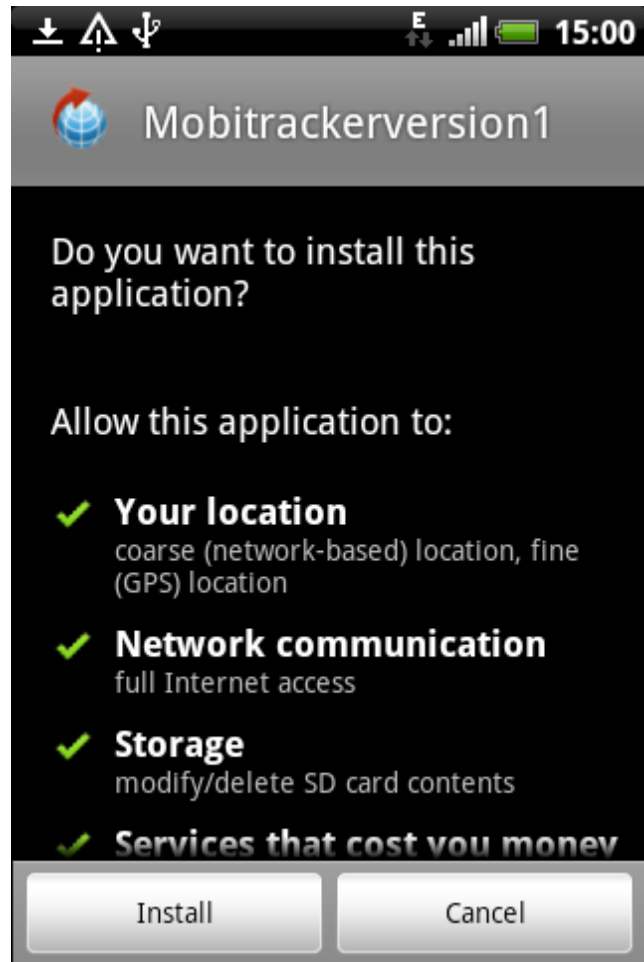

4. "Submission Successful" screen appears.
5. Click the red Free Download button.
6. The app installer file will be downloaded successfully.

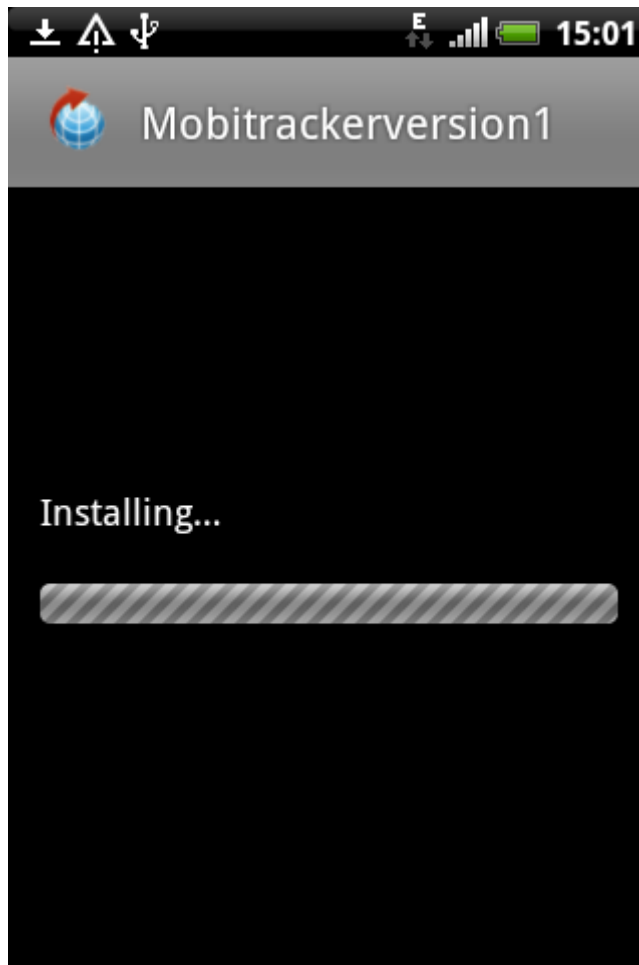

8. Go to Downloads tab of your mobile browser.

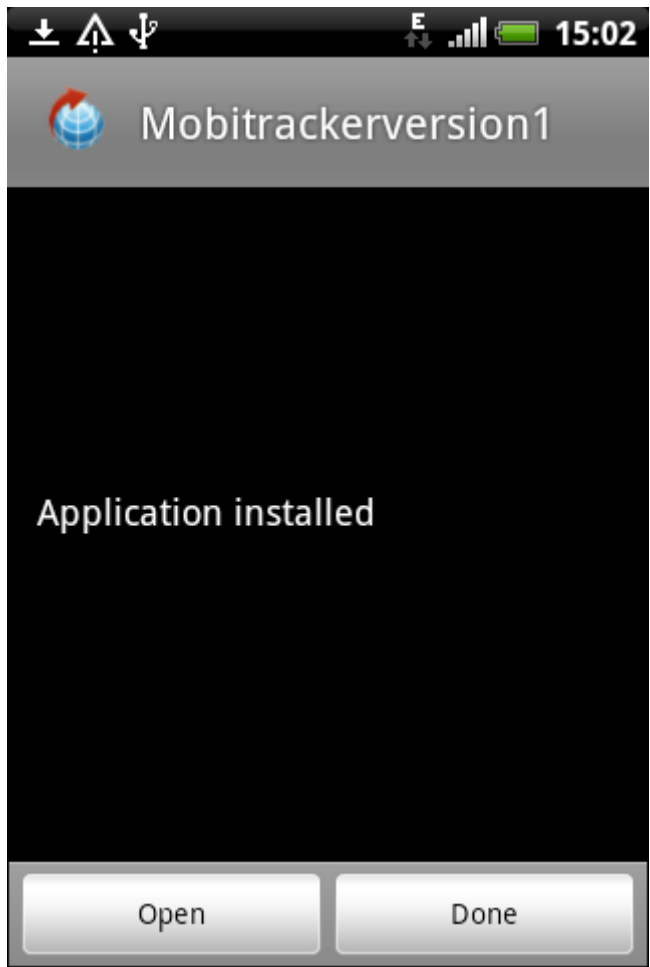

9. Scroll down to and run the setup file Mobitrackerversion1.apk

10. Click the Install button when prompted by the installer

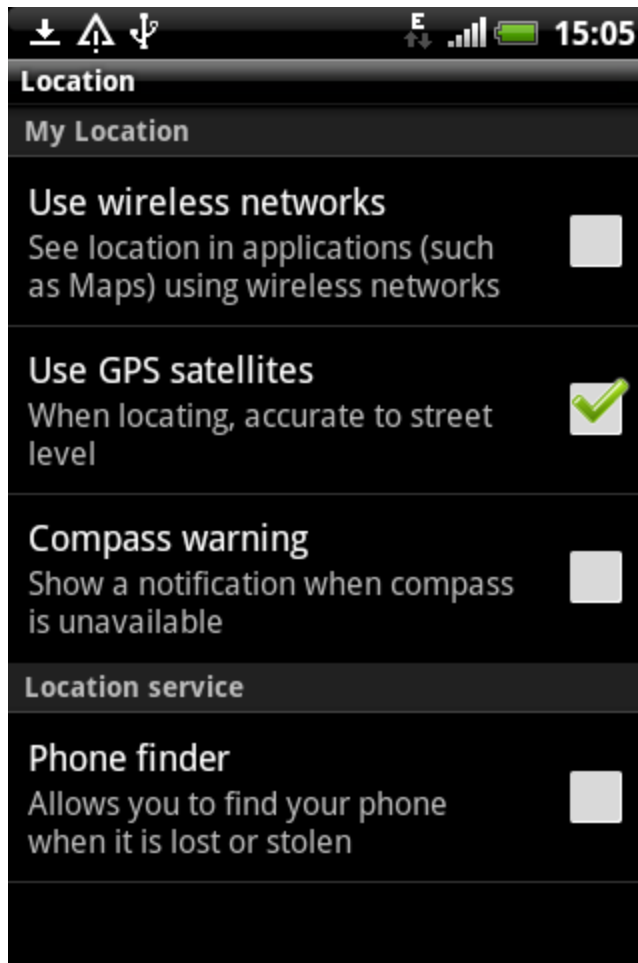

11. Status progress report is displayed during installation process

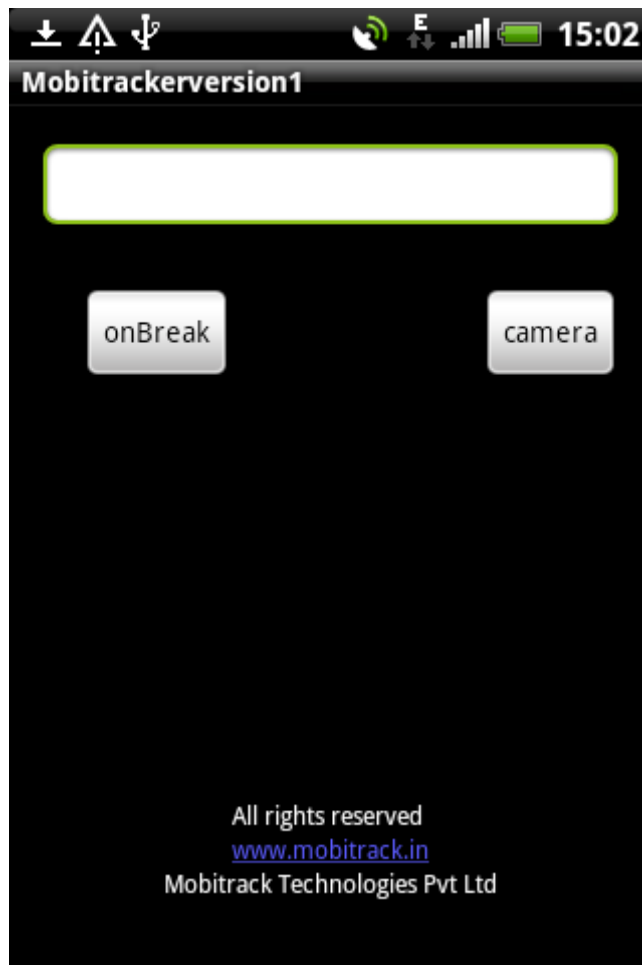

12. Installation is Successful

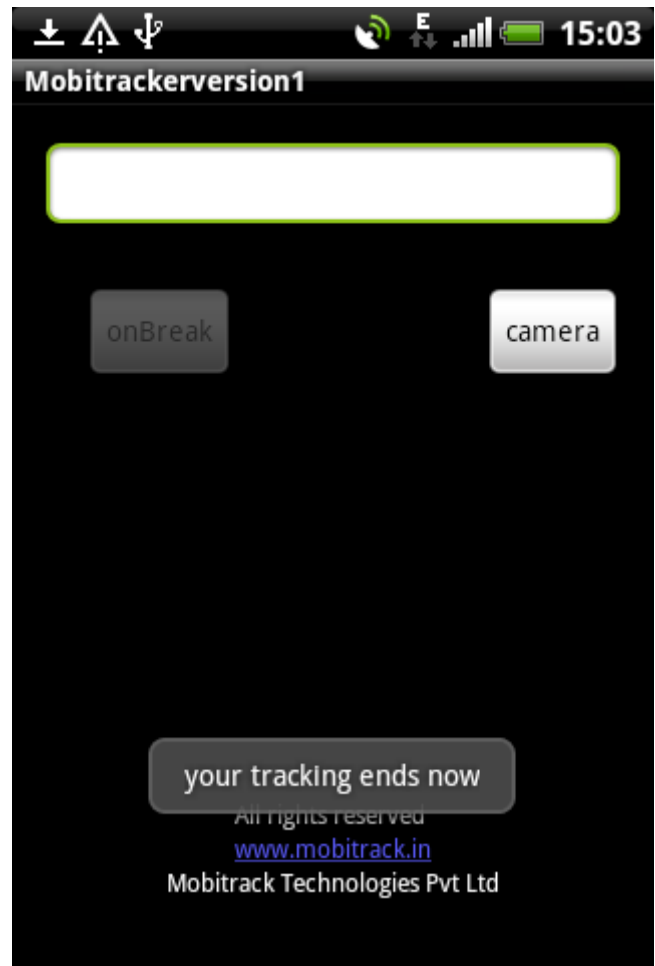

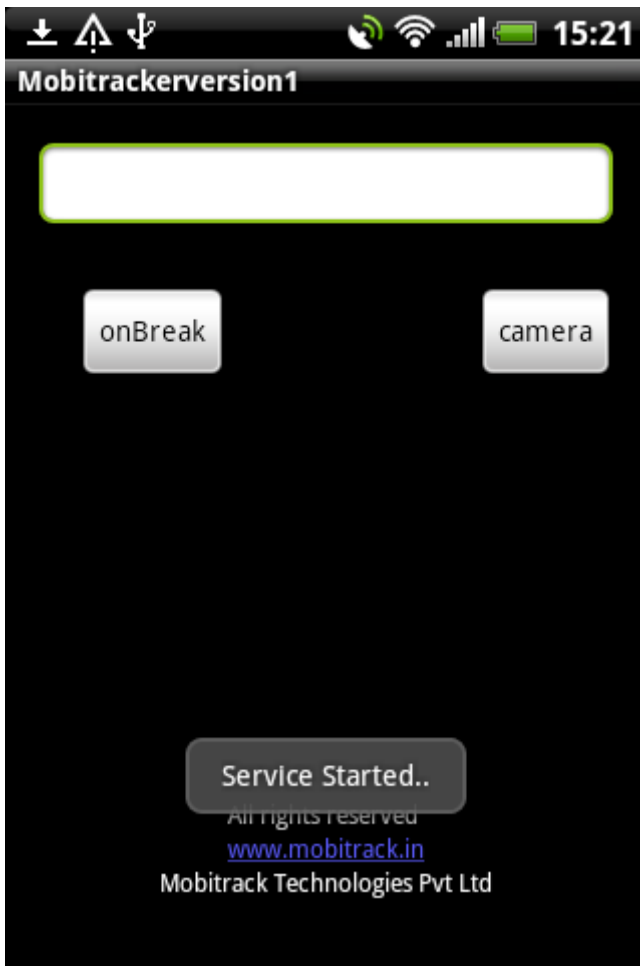

13. Check to Enable GPS satellite setting

14. Start and run the MobiTracker Application in your mobile

15. MobiTracker Application will be running in the background transparently.
16. Start and stop the service to enable or disable tracking.
